

## Use of Park and field

At Get Set Play we are very lucky to be situated right next to a lovely park and field, which we will be using daily to enhance the children's experience at Get Set Play. As this area is outside the boundaries of Anchorage Lodge, we require your permission to take your child there. The children will only ever be using the park and field with full adult supervision. Although it is scarcely used, it is a public area so the children will always be required to wear a high visibility jacket in order for us to be able to identify them easily. Please find enclosed the risk assessment we have carried out on this area for you to read and in addition to this we will also carry out daily checks on the area before taking the children. Please note your child will not be able to use this area without your signed permission.

---

I give permission for my child to use the park and field area under full adult supervision.

I have read the risk assessment for using the park and field.
